# INDEX

---

- Case 1: Birt-Hogg-Dubé syndrome with perifollicular fibromas
- Case 2: Birt-Hogg Dubé syndrome
- Case 3: Reed's syndrome
- Case 4: Lupus pernio
- Case 5: Leprosy with widespread plaques and nodules
- Case 6: Macular arteritis unresponsive to treatment
- Case 7: Tumid lupus erythematosus
- Case 8: Dermatomyositis with interstitial lung disease
- Case 9: Pityriasis lichenoides chronica/PLEVA overlap
- Case 10: A chronic poikilodermatous patch of uncertain diagnosis
- Case 11: Persistent rash, diagnosis unknown
- Case 12: Resistant warts treated with intralesional cidofovir
- Case 13: Recalcitrant warts
- Case 14: Atypical presentation of familial benign chronic pemphigus
- Case 15: Brooke-Spiegler syndrome
- Case 16: Malignant proliferating trichilemmal tumor
- Case 17: Galli-Galli disease
- Case 18: Multiple glomuvenous malformations
- Case 19: Pyoderma gangrenosum with TNF-alpha inhibitor induced psoriasis
- Case 20: Calciphylaxis treated with Apligraf and intralesional sodium thiosulfate
- Case 21: Lichen planus pigmentosus and frontal fibrosing alopecia
- Case 22: Alopecia universalis with improvement on an oral JAK kinase inhibitor
- Case 23: Folliculotropic mycosis fungoides mimicking alopecia areata
- Case 24: Diffuse dermal melanocytosis
- Case 25: Acquired unilateral nevus of Ota (Sun's nevus) in a Caucasian patient
- Case 26: Macular amyloidosis
- Case 27: Adams-Oliver syndrome with aplasia cutis congenita and digital anomalies (Poster)
- Case 28: Cutaneous Rosai-Dorfman disease (Poster)
- Case 29: Purpura annularis telangiectodes of Majocchi (Poster)
- Case 30: Behcet's disease with intestinal involvement (Poster)
